

The technological revolution for reading rooms!

For the first time, the **book2net kiosk** allows **EVERY** library user the opportunity to capture **books and documents up to A2 in size quickly and easily in full color** - it's the perfect alternative to conventional copier technology!

Interested?

Please feel free to call us today to arrange a demonstration - **as a small thank-you, we will supply you with a 4 GB memory stick.**

10 good reasons for a change:

1 Sensor technology

Stay flexible with book2net kiosk. The free choice between a 10.5, 32, 40 or 50 mega pixel sensor will offer you the opportunity to meet your individual requirements in perfect way.

2 0.3 seconds scan speed

Due to its outstanding scan speed of 0.3 seconds and the short cycle time of only 1.9 seconds book2net kiosk offers you an unrivaled productivity.

3 5 inch focus depth

- ease of operation without glass plate

4 Twin-touch technology

The intuitive touch-screen user interface enables even unskilled walk-up operators to achieve a high-quality scan with only two touches.

5 Multilingual

Switch between 7 languages at any stage of operation.

6 Dual USB-port

... for double life expectancy and security.

7 Virus protection

Due to the Windows embedded operation system book2net kiosk offers you maximum protection against viruses.

8 A2 book cradle

- elevates up to 4 inches
- non-reflecting coating
- low external friction to the book

9 UV- & IR-free

The light source of the book2net kiosk has no radiation exposure.

10 Earn more revenue!

Beyond the added value the new technology of the book2net kiosk offers to you the opportunity to reduce costs and raise your revenue.

Best regards
